European Conference

NPS Use in European Prisons

The conference marks the conclusion of the NPS-PRISON project. The project is dedicated to the phenomenon of new psychoactive substances (NPS) in European prisons, with a multi-perspective focus on Poland, Hungary and Germany. On the one hand, we will present the results of the substance monitoring and qualitative case studies. On the other hand, we will suggest intervention possibilities with best practice examples.

Further information on the project is available at:
<https://www.frankfurt-university.de/de/forschung/eu-projekte/>

If you have any questions, please contact us at nps-prison@fb4.fra-uas.de.
